Dirk Dunn

dirkdunn1@gmail.com | 336 North Delaware Ave. | North Massapequa, New York, 11758 | (516) 659-6982

Summary

I am a motivated and experienced JavaScript Developer, that puts expertise, insight, and ingenuity into building notable end to end web applications. I prefer to take an idea and bring it to life over maintaining current systems.
I look forward to the challenges I can solve for your organization.

Dirk has an obvious passion for teaching and it shows with his lessons and the amount of time he spends preparing for them. He could have gotten through our cohorts with doing much less, but then he wouldn't have been happy with the results. He's eager to learn and has a strong thirst for knowledge, don't be surprised to hear

him getting into in-depth discussions with physics for example.

Gina Fitzgerald, Student

General Assembly

Dirk is an excellent mentor and a knowledgeable instructor who provides comprehensive lessons, and meticulous one-on-one help. With each lesson his ability to engage the class improved, and when I wanted to pursue anything beyond the scope of the class he provided the mentorship necessary for me to confidently venture into a new language or technology.
